

## **Beware imitation OHR AERATORS in India**

September 6, 2021

OHR Laboratory Corporation

We (OHR Laboratory Corporation) state that Gasion Airtec Pvt. Ltd have no sales rights for OHR products (OHR AERATOR and OHR MIXER). In addition, we do not provide any technology to the company, and we have no business relationship with the company. In particular, the company's so-called "hydrodynamic aerators" do not use real OHR technology. Such aerators with superficially similar designs are in no way affiliated with our company.

In order to uphold the integrity of our products, we not only sell the OHR AERATOR but also draw on our expertise to provide crucial information on proper installation and layout, air volume calculations, and correct operation. Furthermore, the OHR AERATOR is made only in Japan with state-of-the-art technology and sold only through authorized distributors.

Air diffusers similar to the OHR AERATOR sold by unauthorized suppliers and distributors are imitations with substandard strength and performance. Be aware that there have been reports of imitation products breaking apart during use.

We own the OHR trademark for air diffusers in India. The OHR name can only be used on genuine OHR products. If you have any questions, please feel free to contact us directly.

OHR Laboratory Corporation

536-1, Noda, Irumashi, Saitama, 358-0054 JAPAN
